## **Donation of RAT kits to the Hong Kong Federation of Education Workers**

Despite the lifting of the majority of Covid-19 measures, children in Hong Kong are still required to undertake a daily Rapid Antigen Test (RAT) before going to school, which as parents and caregivers will attest, can be a costly exercise.

As such, the Club has donated 20,000 RAT kits to the Hong Kong Federation of Education Workers (HKFEW) who have distributed them to a number of schools across various districts to help ease this burden.

Yesterday, our Club Captain, Mr Andy Kwok Wing-leung, participated in a handover ceremony with Mr Tang Fei, Vice Chairman of HKFEW and other representatives at the Federation's clubhouse in Mongkok. The Captain thanked the education workers for their dedication in actively providing support to local students and their families.
